ASSEMBLED SOLUTIONS

PRODUCTS HOW YOU WANT THEM

Our Value Added Services are literally tailored to your specific needs. We figure, if every industry is different, why shouldn't we offer products reflecting that? For almost two decades, we've offered assembled solutions, so we know a little bit about getting things done, and getting them done right.

It's all about providing your company with integrated solutions to meet – and exceed – your expectations. As a result, we're unmatched in today's market with a simplified supply chain. From turnkey production of electronic and electrical assemblies, complex, specialized panels and control boxes built in any size, we're delivering creative solutions for your unique needs.

WHETHER YOU NEED...

...AN ENTIRE CUSTOM-BUILT PRODUCT

...A SINGLE PART SOLUTION

...OR A TOTALLY CREATIVE APPROACH

...CARLTON-BATES DELIVERS.

LET US TELL YOU HOW.

VALUE ADDED SERVICES

Design / Engineering Services • Assembly Services
Supply Chain Management Services • Logistics Services
Procurement Services • Inventory Management Services
Manufacturer Services (LEAN, CR\$) • Tracking Services

...WHEN YOU WANT THEM

Customer specifications and schedules are always given priority – while also ensuring the highest quality products at competitive prices. The strong relationships we have with our vendors allow us to get parts at cost and pool our resources, saving you time and money. We're also able to stay on top of ever-changing technologies.

At Carlton-Bates, we're ready to help you grow and build your core final assembly when you are.

...WHERE YOU WANT THEM

Did we mention that we have two assembly plants in the U.S. and one in Mexico, each boasting best-in-class process tailored to your individual needs? Our manufacturing capabilities and 28 branches across the U.S. allow us to provide both a product and service which is unmatched by our competitors.
