

OPTO 22's groov Box

groov Box gives you the tools you need—for visualization, data handling, and connectivity—all in one compact, industrial appliance

groov with Ignition Edge - Your New IIoT Edge Appliance

Look what you can do:

- » Capture data from PLCs and PACs with OPC UA drivers to major brands.
- » Instrument virtually any physical device or environment with SNAP PAC I/O.
- » Send or log data to databases, spreadsheets, cloud platforms & services.
- » Develop IIoT applications rapidly with Node-RED and open-source nodes.
- » Convert data to MQTT messages with Sparkplug; then publish & subscribe.
- » Communicate with thousands of public and private RESTful APIs.
- » Distribute the Ignition platform to the network edge across your enterprise.
- » Build browser-based operator interfaces to automation & controls data.
- » View data securely on mobile devices and web-based clients from anywhere.
- » Notify operators and managers of alarms and events with texts and email.
- » Segment your corporate network from your controls network.
- » Secure access to your data and screens with encryption and user authentication.
