

CBC STOCKS TECHSPRAY

What supplier can every customer utilize?
Techspray.

Precision, Safety, Performance...

ADVANCED CHEMISTRIES TO IMPROVE YOUR PRODUCTS & PROCESSES

Techspray specializes in cleaners,
coatings, and other chemicals
and tools that improve efficiency,
safety, and performance.

CBC just brought in a large stocking package of Techspray. Here are some of the top sellers:

- » 1608-100R SMT Stencil Wipes;
Isopropyl Alcohol (IPA Wipes)
70% Refill Roll

- » 1610-100FL Isopropyl Alcohol
(IPA Wipes) 99.8% Flip-top Tub

- » 1610-100R Isopropyl Alcohol
(IPA Wipes) 70% Refill Rolls
99.8% Refill Rolls

- » 1620-10S E-Line Blue Shower
Maintenance Cleaner

- › This product cleans oil and contaminants off of metal parts, printed circuit boards, barcode instruments, switch boxes, gear boxes, and engines. Techspray has produced Blue Shower® maintenance cleaners for over 30 years, making Blue Shower a staple in maintenance departments all over the world!

A SUBSIDIARY OF WESCO DISTRIBUTION, INC.

» 1621-10S E-Line Flux Remover

- Eliminates brushing and scrubbing, saving time and materials. Micro-components and fine pitch leads are delicate and easily damaged, so brushing and scrubbing should be avoided if possible. Techspray aerosol solvents have a powerful spray and strong solvent that blasts off residues and cleans areas under components that a brush cannot touch.

» 1622-13S E-Line Contact Cleaner

- Hydrocarbon based defluxer formulated to be powerful, yet very economical. Eliminates brushing and scrubbing, saving time and materials. Clean oxidation, oil, and other contaminants from contacts, metal switches, relays, edge connectors, buss bars, and circuit breakers.

» 1634-12S G3® No-Clean Flux Remover

- Residues from higher, lead-free temperatures are more baked on and harder to clean. G3® No-Clean Flux Remover has been proven very effective at removing fluxes baked on at lead-free temperatures. It has a powerful spray and strong solvent that blasts off residues and cleans areas under components that a brush cannot touch.

» 1651-16S Precision V Maintenance Cleaner & Flux Remover

- Formulated to reduce VOCs within your facility. Ideal for aviation and other applications where strict VOC caps apply (based on EPA VOC exemptions). Bulk chemicals ideal for soak cleaning and ultrasonics (not intended for vapor degreaser).

» 1667-18S Blue Shower II Cleaner/Degreaser

- Non-flammable, high precision cleaner that is ideally suited for sensitive plastics often used in seals and outer casings.

» 1672-15S Freezer

- Rapidly evaporating liquid that super-chills isolated areas. Used as a troubleshooting aid for intermittently faulting capacitors, resistors, semiconductors, and other defective components. It also increases visibility of cold solder joints, cracks in printed circuit boards and oxidized junctions.

» 1673-10S Economy Duster

- Economical HFC152a based duster. Note: not for use on powered electrical equipment, on hot surfaces, and around open flames or sparks.

» 2104-12S Fine-L-Kote UR urethane Conformal Coating

- Urethane Conformal Coating is widely used in harsh chemical environments.

» 2027-1 General Cleaning Brush
7/8" x 3/8" Hog Hair

» Tech Brushes - Five tons of pressure are applied to each metal brush handle to ensure that the bristles remain intact during the most rigorous applications.

- 2031-1 Tech Brush – Detail 1/8" x 3/16" Horse Hair
- 2032-1 Tech Brush – Detail 1/2" x 3/8" Horse Hair

» 2204-85Q Wondermask WSOL Washable Solder Mask

- Ideal waterwashable mask for closedloop systems. Quickly and easily removed with inline and batch cleaning system.

» 2301-100 Cotton Swab

- Tightly wrapped, precleaned cotton ensures the least amount of extractable contaminants.

» 2350-100 Techclean Wiper

- Hydroentangled cellulose/polyester wipe with high absorbency and extra low particulate count and no chemical extractables.

» 2355—100 Techclean Purewipe

- 100% polyester wipe is a strong, lowlinting wipe that is idea for SMT stencil cleaning and PCB rework. Tear resistant to allow cleaning around leads without fraying.

» 2362-150 Techclean Anti-Static Wipe

- Polyester wipe that is interwoven with DuPont's NEGASTAT carbon yarn. NEGASTAT dissipates static charge, preventing static buildup and allowing dissipation. Perfect for dry wiping ESDsensitive components and boards. Tear resistant to allow cleaning around throughhole leads without fraying.

» 53-4001-0533 Techform TC-533 Peelable Solder Mask

- Kester peelable mask is a high-temperature flexible solder masking compound specially formulated of natural latex rubber. Prevent solder from flowing into contacts, terminals, screw heads and plated through holes.

» 2307-50 Mini-tip Foam Swab

- All foam swabs are manufactured with 100 pores per inch reticulated polyurethane foam, which ensures excellent absorbency while minimizing contamination. Tips are affixed by heat seal to prevent tip loss, even while saturated with solvent. Flexible tips provide versatility and softer touch, while rigid heads allow for more aggressive cleaning. 2307 swab had a flexible paddle tip, for a softer touch.
