IP68 AC & DC Fans

Waterproof Protection for Harsh Environments

Orion Fans IP68-rated AC and DC axial fans deliver a waterproof design for harsh environments. The IP68 rating ensures that the motor has complete protection from dust and other particles and can be completely submerged in water of depths up to three meters. Special functions such as alarm, tachometer, thermistor speed control, and temperature sensor are available with the IP68-rated DC fans.

Features and Benefits

- Designed for demanding wash-down applications
- PBT, UL94V-0 plastic or Aluminum die-cast frames
- Dual ball bearing system design
- AC Fans available in 176mm-280mm frame sizes
- DC Fans available in 60mm-172mm frame sizes
