

Hard Hat Safety Light

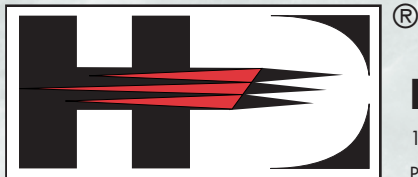

RITE-LITE[®] SAFETY LIGHT

The Rite-Lite Hard Hat Light will provide the right amount of light when and where you need it - while keeping both hands free. Because the Rite-Lite attaches to the hard hat with mounting strips, it is easily removed and used as a hand-held all purpose flashlight.

Long life batteries give the RITE-LITE superior performance in the most severe conditions. When the battery is exhausted, remove the old unit and install a new RITE-LITE, which takes only seconds to change!

The RITE-LITE is designed to operate when it's needed most. A long shelf life, long operating duty, and a strong light beam provides the perfect tool for emergency lighting requirements.

HD ELECTRIC COMPANY

1475 LAKESIDE DRIVE • WAUKEGAN, ILLINOIS 60085 U.S.A.

The "Fly-Eye" reflector provides more output, flooding the work area with bright, useable light. No more "spotty" patterns found with old, conventional reflector designs.

RITE-LITE® is provided with self-adhesive mounting strips.

- One strip installs permanently on the hat.
- One strip adheres to the back of the light.
- Press the mounting strips together and the light mounts where and when you want it.

ALKALINE BATTERY PERFORMANCE CHART

YOU HAVE LIGHT... WHEREVER YOU LOOK!

FEATURES

- Contoured design fits hard hats and bump caps. Also provides a natural fit in your hand.
- On/off switch gives a positive switching action.
- Made of impact-resistant polystyrene plastic with no exposed metal.
- RITE-LITE® II weighs 7.5 oz. (213g)
- No user fatigue.

- Ultra-sonically sealed assembly won't leak.
- Long-life alkaline battery provides over 15 hours of burn time (more with intermittent use).**
- Self-contained; no expensive batteries or bulbs to replace.
- "Fly-Eye" reflector provides a bright, even flood of light.
- Polycarbonate lens assists in focusing the light and protects the bulb from damage.

**Burn time varies due to usage and temperature.
