

## Integrating A/V with the Collaborative Space

Current trends in workplace design are allocating more open space for meetings and collaboration. This trend presents a challenge for routing and managing the “last meter” of cables from the infrastructure to the point-of-use. Furthermore, connectivity and power configurations that are required to help business run smoothly, change quickly as new technologies are introduced. Wiremold® Meeting Room Solutions solve all these issues with the new InteGreat™ Series of products. InteGreat™ Products are specifically designed to fit together, protecting the routing of power, communication and A/V cables from the point-of-use to the building infrastructure. The InteGreat™ Series is also designed to work with other Wiremold products, such as Wiremold OFR Series Overfloor Raceway and Wiremold Poke-Thru Devices. InteGreat™ Products organize, protect and hide “the last meter” of cabling, as well as providing ready accessibility for future technology upgrades.

InteGreat™ A/V Table Box has a stylish design that fits into any meeting space. It provides power, communication and A/V connectivity, and can be combined with InteGreat™ Cable Retractors for excellent cable management. Now with USB Charging!

### FEATURES & BENEFITS

- **InteGreat™ products promote system integrity.** InteGreat™ Products are specifically designed to work together. This ensures cable organization and protection from the point-of-use to the building infrastructure. This system integrity also shortens the time needed for technology upgrades.
- **Attractive Design.** InteGreat™ table boxes have a brushed anodized finish that is available in either black or aluminum colors to match any room decor.
- **Multi-Service Integration Protection.** InteGreat™ products accept power, A/V and communication services, while keeping cords and cables neat and organized. This protects your cabling, while creating a clean, organized meeting space.
- **USB Charging.** InteGreat™ A/V Tables Boxes come standard with 2 USB-A Charging Ports, 3.1A shared.
- **Ultimate Flexibility.** InteGreat™ products are adaptable to most meeting room tables, allowing the same parts to be used regardless of table or room dimensions.
- **Easy to Maintain.** InteGreat™ products easily accept future upgrades, minimizing disruptions and down time.
- **Ease of Installation.** Simple and straight-forward, InteGreat™ products install quickly so that downtime is minimal.
- **Safety.** InteGreat™ A/V Table Boxes have gasketed receptacles that protect against spills and meet US and Canadian safety standards.
- **cETLus Listed.** InteGreat™ A/V Table Boxes are ETL listed to meet US and Canadian safety standards.

## InteGreat Cable Retractors

InteGreat Cable Retractors attach easily to InteGreat A/V Table Boxes, or can be mounted directly to the underside of conference room tables. InteGreat Cable Retractors have 5' [1.52m] of retractable cable that allows users to have easy access to A/V and communication services. With a simple pull, the cable locks into place or retracts back into the table box, keeping the conference room table neat and organized.

InteGreat Cable Retractors protect cables while keeping them neat and organized.

### InteGreat Cable Retractors Ordering Information

| Catalog No./Item       | Description/Specifications   |
|------------------------|--|
| <p><b>TBCRCAT6</b></p> | <p><b>Cable Retractor with Category 6 cable</b> – Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the TBCRHMK. Loaded with 12' [3.66m] of Cat6A cable that extends out 5' [1.52m] from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side.</p>   |
| <p><b>TBCRHDMI</b></p> | <p><b>Cable Retractor with High Speed HDMI with Ethernet cable</b> – Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the TBCRHMK. Loaded with 12' [3.66m] of HDMI with Ethernet cable that extends out 5' [1.52m] from the retractor. Retractor has a female input from building infrastructure, and a male connector on the output side. Input side has mounting tab that allows installer to cable tie HDMI to the retractor to minimize chances of a loose connection.</p> <p><b>NOTE:</b> Per the HDMI specification, only four HDMI type cables exist: Standard Speed, Standard Speed with Ethernet, High Speed and High Speed with Ethernet. The HDMI organization has put in place a rule that requires all HDMI cables to be marketed in this manner. Therefore you will not see our cables marketed as HDMI 2.0 cables. Keep in mind that installing a cable supporting HDMI 2.0 features does not give your existing devices with previous HDMI specifications the ability to experience 4K x 2K resolution, 3D audio return or Ethernet New A/V equipment supporting these desired features is required in order to experience the newly specified features.</p> |
| <p><b>TBCRDP</b></p>   | <p><b>Cable Retractor with DisplayPort Cable</b> – Mounts directly to the InteGreat Series A/V Table Box or to the underside of the conference room table using the TBCRHMK. Loaded with 12' [3.66m] of Displayport cable that extends out 5' [1.52m] from the retractor. Retractor has a female input from building infrastructure, and a male connector with latch on the output side.</p> <p><b>NOTE:</b> Cable supports High Bit Rate (HBR) bandwidth and up to a 4K resolution. Built to DisplayPort 1.2 standards, meeting the requirements of high performance applications.</p>  |
